

August 7th 2006

Dear Sandra

I am embarrassed that it has taken me so long to write this letter to you. I want you to know that you have been on my mind. I've had a chronic bout of bronchitis for the past several months and it really let me back on many things that I wanted to do. — Especially congratulating you on your last year as president of AAE and most recently your retirement. You have a lot to be proud of and I'm honored that I can call you my friend. I've enjoyed your company on the professional basis but more importantly on a personal level. — Our time we have spent together getting to know one another, working with each other, socializing with one another has been very important and enjoyable to me. ~

Wish you all the Successes  
in your new endeavors. I'm very  
happy to see you don't allow the grass  
to grow under your feet. -

Hope the door of our friendship  
will always remain open and if you  
can fit me into your busy schedule  
you are always welcome to spend  
sometime with me at the cottage on the  
lake"

Love,  
Jeff

P.S. Thank Bernard for the Chamber News  
congratulation maybe well done. ~
